PAYMENT ORDERED ON POOL TOBACCO

Third Payment to be Sent Out to Growers Who Have Delivered.

A third payment has been ordered to growers in the Northern Wisconsin Co-operative Tobacco pool, according to information sent out by J. H. Davidson, president.

During March a second payment was made to the growers amounting to more than \$1,000,000.

As soon as possible after the tobacco delivery season closes, growers will get their final check with a full statement of everything including all deductions made for expenses and for working capital," reads the statement of the pool.

Counting the third payment growers are getting paid on the advance price the following amounts:

Blenders and grades, A-21 cents, B-1, 18 cents, B-2, 18 cents, C-1, 15 cents, C-2, 15 cents, D-1, 12 cents, D-2, 10 cents and the remaining 10 cents will be paid in the form of a bonus.

All people interested in the Wisconsin tobacco market are watching what will be done with the unsold lower grade sorting tobacco. Growers having this class of tobacco on hand, and which has not been moved, are in a dubious state of mind. The warm weather in endangering the crop in the sheds. Warning is given out not to have this tobacco piled more than three bundles high to limit the damage of sweating.

Rheumatic Neuritis

Says His Prescription Completely Banishes All Rheumatic Pain and Twinges—Is Guaranteed.

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-Four Hours.

Every druggist in this county is authorized to say to every rheumatic sufferer that if a full pint bottle of ALLENRUH, the sure conqueror of rheumatism, does not show the way to stop the agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

ALLENRUH has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiable and where the patient was helpless.

Mr. James H. Allen, of Rochester, N. Y., the discoverer of ALLENRUH, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless ALLENRUH decisively conquers this worst of all diseases, and he has instructed druggists to guarantee it as above in every instance. People's Drug Co. can supply you.

BOARD AGAINST STATE TAX BILL

Supervisors Vote, 35 to 6, Pro- test to be Sent to Representatives.

With the only flurry being during the argument over the Woodruff resolution providing for steps toward securing sanatorium care for more Rock county patients, the county board of supervisors held a short hour and a half session, Wednesday afternoon, adopting a protest against the administration tax bill in a resolution introduced by Supervisor L. A. Markham, Janesville.

After a five minute recess at 3 p. m., the board adjourned until Thursday morning, it being evident that none of the supervisors had any inclination to make the board work.

The resolution protesting against the tax bill, was adopted by a vote of 35-6, with the following votes being cast by Supervisors R. E. Adelson, George Clematson, George Drafi, O. B. Hall, W. J. Lathers, and C. O. Osgard. The resolution, copies of which will be forwarded to the Senator A. E. Garey, and Assemblyman Alexander B. Matheson and Bert Mosely, the latter being president of the county board, and the board representing Beloit township, states two objections to the bill from the standpoint of Rock county.

Two Objections to Bill

"The bill increases the rate of income tax to the point it becomes a burden upon the taxpayers of Rock county," the resolution states. "And it so distributes the taxes received that by far the larger amount is taken away from the county and local tax unit and given to the state."

"I think we should have the bill read before we vote upon it," said Supervisor W. J. Lathers.

"Well, the bill is some 48 pages long," explained Mr. Markham. "It won't read."

With the idea of settling once and for all time the aged controversy as to what expenses of the office of the assessor of incomes are paid by the county board, which has caused much inconvenience to P. A. Taylor, was brought up by Mr. Markham, who declared that upon writing to nearby counties he had been notified they were paying for the upkeep of the office. Mr. Markham introduced a resolution appropriating \$800 to cover the expenses of the Rock county assessor of incomes office, and with an amendment that the district attorney take it up with the attorney general, it was carried.

You Do Your Own Work by Looking At Your Hands

Now—lovely hands for housewives

A new idea in household soaps

Pure soap!

Do you know that scores of women whose lovely hands you envy do every bit of their own work?

Women have found a better way in dishwashing and household work—a way that is safer for the hands.

It is offered here to you, A household soap as bland as a fine toilet soap. Yet more quickly cleansing than the harshest, old-time laundry soap.

Scrub, wash, clean—yet keep your hands pretty.

A New Idea

3 housewives in 4, before the days of Green Arrow, had ugly hands.

Super-strong household soaps were the reason.

Most contain 25% to 40% water glass—a skin wrecker. Of 28 popular brands of these soaps, 27 under test thus revealed themselves.

Harsh suds and

white hands don't go together. So we developed this new idea in soap. A household soap for the woman who does her own work.

And thousands of women thank us for it.

Obtain today a supply of Green Arrow at your grocer's. Then look at your hands one week from today.

That is all we ask.

Green Arrow Soap comes in two forms—Cake Soap, for general household use—Chips (or flakes) for laundry and fine fabrics. Both offer you unusual advantages.

FEAR TANGLE IN OIL CONCESSIONS

Senate Rumbles Are Heard; Hughes Reassures Fearful Solons.

By DAVID LAWRENCE.
Copyright, 1923, by Janesville Daily Gazette.

Washington.—Rumblings are being heard from the floor of the senate on the subject of the oil concessions granted American capitalists in Turkey.

When congress meets the whole subject is likely to be aired and a resolution calling for the facts introduced. Some of the senators, particularly the "Irreconcilable" group think there is more chance of foreign entanglements in the concession business than in the league of nations itself.

Secretary of State Hughes, sensing the talk of complications, for the European press has been full of his promises that constantly in his conferences with the press there need be no worry about entanglements and that the discussion of international conflict over the Turkish concessions which has been so prominent in the press since from abroad, is largely a spectre of the imagination.

Mr. Hughes' experience with legal complexities leads him to approach with caution, but constantly in his conferences with the press there need be no worry about entanglements and that the discussion of international conflict over the Turkish concessions which has been so prominent in the press since from abroad, is largely a spectre of the imagination.

Lodging a Protest.

The French government has not yet lodged any formal protest, but has communicated its views in a preliminary way. The United States government is not unkindly of the deep interest which foreign governments will take in the matter. It usually feels they need have no cause to fear inequitable treatment. For first of all it becomes necessary to determine what are the facts. Thus far the American government knows only that the concession has been granted the Chester oil interests by the Angora government and that there have been certain modifications since the proposal was first made. The attention of the state department here. When the text has been received and when foreign governments have pointed out just where their claims conflict with the American concession, the department of state will endeavor to make the Chester interests to adjust directly such questions as can be adjusted between them and the Chester interests and if that still leaves a conflict, the proposal will be made that an arbitral tribunal be appointed with full power to resolve the points of dispute.

No Insubordination

Having in mind such a careful legal procedure, the government here falls to see how any enormous political insubordination could be out of this controversy. The full diplomatic support of the American government is given when legitimate claims are made by American interests. The question of whether Americans have valid rights must be determined first before there can be given the backing of the government. But even then the backing is matter of moral support and strong diplomatic language. There have been disputes of a legal nature before in which American interests have not always come out on top but the government here has not felt it was obligated to use its army and navy to protect American legal rights abroad. Usually the disputes have had acquiescence in which foreign governments have sought things from the American government and the power of retaliation can always be invoked without recourse to serious international conflict.

Took Firm Hand.

In the recent controversy, for instance, over the monopolistic tendency of certain Dutch and British oil companies in smaller states, the United States government has taken a firm stand and has even begun proceedings looking to the expulsion of those companies from operations on American territory unless reciprocity can be established and obstacles in the way of freedom of opportunity for American interests in other parts of the world are removed. The United States never sought any special privilege in any part of the world but only freedom of opportunity. There are oil bearing lands in Central and South America, which is in a sense within the American sphere of influence. Should American interests fail to get their just due in the Near East and other regions under European political control, the natural effect would be to establish a preferential position on this and the South American continent for those who seek concessions not merely Americans but the nationals of other countries which see to it that American citizens get a square deal and an open door.

Both the crossing and the approaches are being widened and graded to permit installation of signal blocks in the center. There will be two two-way devices, one for each track. They will be so placed that traffic going in either direction will have to go to the right to avoid them.

Gates will be installed at the Main street crossing in the downtown district.

Although residents can recall but two deaths, one at each crossing, having occurred in the past, there have been so many collisions and narrow escapes at both that the railroad commission saw fit to order the improvements on petition of Evansville citizens.

The street crossing is particularly dangerous because of the cut which obstructs the view of southbound motorists.

SKATING PLAIN STUMPS SLAWSON

Evansville.—Police Justice Nathaniel T. Slawson is having his troubles in regard to roller skating on the city streets.

On complaint of a woman, Wednesday afternoon, that children were making a skating rink out of the sidewalk in front of her home, he made a cursory search of the city ordinances and statutes but failed to find any regulations prohibiting it.

Justice Slawson is "stumped." Chief of Police Fred Gilman has been appealed to for a solution.

Road Materials Are Being Taken to Paving Site

Evansville.—Great quantities of cement are being taken from here by county Highway trucks this week to the county road building machinery.

Five miles south of the city on No. 19 highway. The gravel pit apparatus is being put in shape for an early start on 1923 concrete paving operations.

The schedule calls for completion of stretch from Layden to Evansville this year, laying the city a solid band of concrete to Janesville, probably by mid-summer.

While automobiles are now able to get through to Janesville on No. 19 highway, the four-mile stretch north of Layden is in bad shape owing to grading done last year and slow travel is the rule. Even travel to Janesville, the Magnolia detour is considered more advisable, although slightly longer.

The Evansville-Madison road is in excellent condition considering the general hardship on highways worked the past winter. Dane county road gangs have been at work with scrapers on the road south of Oregon and it is fast rounding into condition for the heavy summer traffic.

City Cleanup Is Under Way

Evansville.—Citizens are enjoying the first real spring weather this week and have been busy with their spring housecleaning. The government too has entered into the clean-up, with Street Commissioner Allen Ballard in charge. Mr. Ballard and his men were out in full force Wednesday, pushing Main street pavement of the accumulated dirt and debris of the past winter.

NEW CITY COUNCIL IN RADICAL MOVE

Street and Alley Committee Succeeds Board of Public Works.

Evansville.—Abolishment of the board of public works and the office of commissioner, appropriation of money to assure the renting of land for a tourist camp and the granting of several street oiling petitions, were features of the opening session of the 1923-24 city council, Tuesday night.

The old council met in its final session at 7:30 and the new administration came into office at 8 o'clock.

The three retiring aldermen are: A. Winn, First ward; L. J. Cram, Second; and D. M. Putehen, Third. There were no provincial "swan songs" and Mayor E. M. Jones started on the second year of his administration without formality.

Is Radical Step. Doing away with the board of public works is a radical change, the body having existed for many years. Its abolishment was voted unanimously upon motion of Ald. W. J. Clark.

The duties of the board in the future will be performed by the street and sewer committee of the council, composed of Aldermen Clyde Babcock, James A. Harper and W. E. Green.

Alderman Babcock offered the resolution for abolishing the office of controller, a position not filled in recent years. The council finance committee will perform the duties in the future. Ald. W. J. Clark is chairman.

Money for Lights. The city's share of the new ornamental lighting system, money for which is being raised by subscription, was appropriated upon motion.

By FRANK SINCLAIR

WHILE THINKING about the local "prep" institution and the manner in which it is coming to the front, the following was procured from the board of education. "Proper athletic training has great value as an aid to mental and moral growth. It is an accepted fact that the best mental development is obtained when the powers of the mind and of the body are developed simultaneously. The brain cannot be at its best in an enfeebled or unhealthy body. It is not alone for the impetuous it gives in bodily development, however, that athletics should have a place as one of the legitimate adjuncts of the high school, but also that through this means the school may become a center about which shall cling all the strongest interests of the young manhood and young womanhood that come within its sphere."

BY THE MOMENT, though might say in passing that the board of education referred to in the paragraph above was the board of the year, 1922. The above was taken from a report of that body of 23 years ago. How true they still are. Read on. "Too little attention has been given to athletics in the past. Some abuses and excesses have been practiced that should have been prevented. The work of the high school athletic association is so organized now that a larger number of sports and much more regular physical training will be furthered. Just a question: Have we progressed?"

JUST a little more of taking stock. The high school, which is building that of high street, was just about ready when this report was printed. As a matter of comparison, each of the third story of the new building is a large gymnasium, with a commodious gallery across one side. It is hoped that within a few years this room will be provided with gymnastic appliances and that regular gymnastic work will be indulged in by all students in the high school. It is by such regular, persistent training that results of great value may be attained. The ordinary work about the home, although valuable, will not give the needed training that results in a healthy body. The gymnasium is used now in its unfinished condition for drills, basketball, indoor baseball and for other sports. It takes the place in large measure of a school campus."

BRINGING UP FATHER

Frankie Signs to Pitch for Fort League Outfit

With the season opening a little under a month away, things are beginning to liven in the southern Wisconsin league.

In Janesville, plans are under way for the formation of a local outfit to lay arrangements for a celebration on the opening day, May 13, when Fort Atkinson comes here for the initial set. By that time, the domain of the Janesville outfit will be in first class condition, additional bachelors will have been erected on the North Washington street diamond and everything will be in readiness.

It is a bit too early to say what form the plans for opening day will take. They will be out of the ordinary, however.

News from Fort Atkinson, is that the American legion up there is solidly behind the squad. Frankie, the youthful hurler who made his debut in league baseball last year, signed Wednesday to twirl again for the Fort. Jefferson, which has entered the Jefferson-Dodge county league will have been erected on the North Washington street diamond and everything will be in readiness.

Hornich, Fort boy, has put his John Hancock to a Fort contract as catcher. "Hornich" performed last year with "Sugar" Breckenridge's independent club at Stoughton.

Fort will sit down to dinner Thursday night as a booster for the coming season.

Limit Loop to 8 Teams

Amateurism will prevail in the industrial baseball league of Janesville now in process of formation. This was decided at a meeting of the board of organization held at the Y. M. C. A. Wednesday night.

The league will consist of eight teams. The first eight to renew application for berths will be considered. The managers of the circuit expect to hear from the Tank Corps, Gazette, Parker Bros. American Metals, Woolen Mills, Bankers, Chrysler, Knights of Columbus and the Lakota club. An entrance fee of \$10 will be charged.

Each team will be uniformed. A meeting of the captains and managers to approve the drafted rules and to set a date for the opening game will be held at the "Y" Friday night.

The grounds committee now is at work looking for play spaces. One will probably be at the fair grounds. The Black Cat diamond may also be utilized.

Hutchins Leads Milton Outfit; Practice Starts

Milton — George Hutchins, veteran backstop, was chosen Wednesday afternoon to captain the Milton college baseball team this spring.

The new Brown and Blue leader lives in North Loup, Neb., a town which has produced many Milton athletes. Russell Hill, 1922, football captain, and Carroll Hill, football captain-elect, are both products of North Loup.

Outdoor practice was resumed Wednesday, when the players appeared in diamond tog for the first time. Bad weather has interfered greatly with both baseball and track work this month. The first baseball game will be with Whitewater normal, Apr. 27.

With "Pete" Lanphere, Brown and Blue pitching ace, definitely out of college baseball this season, Coach Crandall is trying to develop a twirler to fill the little blond south-paw's shoes. Of several green men trying out for the position, Samuelson, a graduate of Port Wing high school, and Baker, varsity outfielder, appear to be the most likely choice.

74,000 Witness Yankee Opener

[BY ASSOCIATED PRESS.]
New York—More baseball hungry humans sat in the Yankee stadium in the Bronx Wednesday and saw Babe Ruth and Bob Shawkey win a ball game than attended the opening games at the three American league cities of Philadelphia, Cleveland and St. Louis combined.

Half as many fans helped dedicate the Yankee grandstand, and compared the largest crowd that ever saw a baseball game, as attended at all the other seven major league cities combined on their opening days.

The approximate total of 220,000 in a Rockford team.

BLAINE TAX BILL
UP FOR HEARING
AND FIRST ROUND

[BY ASSOCIATED PRESS.]
Madison—Governor Blaine's general income tax bill starts on its legislative journey today with the hearing Thursday afternoon before the joint committee on finance and the assembly committee on taxation. Merits of the measure are thrust out at this hearing before the bill gets to the floor of the senate for action, probably next week. If the regular procedure is followed.
While opponents of the income tax measure actively sponsored by Governor Blaine, have not made their plans known, it is expected here that there will be a number of appearances against the proposal when it comes up for hearing. M. B. Olbrich, executive counsel, is representing the governor, while Frank Stricker, income tax expert of the tax commission, will explain the rate schedules of his bill.
Bill Minkes Present
Senator H. J. Severson and Speaker John L. Dahl, authors of two income tax bills which Governor Blaine asked the finance committee to sidetrack pending consideration of his revenue measure, will both be present at the hearing. Both of them assert that they will merely listen to hear what the spokesmen of the opposition have to say, and that they will not make any argument or appearance against the bill at the hearing. Their later stand, according to pressmen of the two, will show them lined up against the governor.
Mr. Olbrich issued a statement today giving the arguments he will urge in favor of Governor Blaine's tax plan. He said that "Wisconsin is not ambitious to become a rich man's Utopia," and that the bill he supported was drafted on that theory. After outlining features of the measure which he said brought realization of a goal sought for 30 years in the state, Mr. Olbrich turned to reference to those opposing the measure and said that "These men ought to realize that Wisconsin is not primarily ambitious to be a paradise for a few rich men and a place where the rest of the population ekes out a bare existence. Progress toward a better social order, for a more even distribution of opportunity, will not be checked because some men lose their temper and start calling names."
Supports Blaine Bill
The governor's tax bill, he said, "is extremely moderate. He proposes in effect that \$5,500,000 shall be shifted from over-burdened real and personal property to income taxpayers. He declared that "the only criticism that can be brought against the pending measure is that it does not go far enough."
Mr. Olbrich pointed out that taxpayers will still be permitted to use 18 and 1-3 per cent of their personal property tax offset. He declared that "no measure was ever more justified than the governor's tax bill, which seeks by process of statutory law to take a portion of the great incomes that flow into this state from a statewide population, pursuant to economic law, and apply that portion in payment of the expenses of the state, which as a whole has contributed to the creation of the great income."

Are You a Weak Woman?
Health and Good Looks are Most Vital to You. Read What Mrs. Snyder Says.

Madison, Wis. — "For inward trouble I can highly recommend Dr. Pierce's Favorite Prescription. In my younger years I suffered so that I couldn't get around to do my work. For five months I was so weak I couldn't sit up to have my bed made. My people thought I was just about done for when a neighbor advised me to take Dr. Pierce's Favorite Prescription. It surely did wonders for me. It cured me of the feminine trouble and strengthened me in every way."
Mrs. Mary Snyder, 444 W. Main St.
Obtain this "Prescription" of Dr. Pierce's now of your nearest druggist, in tablets or liquid, and start on the high road to health and good looks. Write Dr. Pierce, Pres. Invalids' Hotel in Buffalo, N. Y., for free medical advice.

Kidney and Bladder Troubles Conquered or Money Back

For 40 years, said Dr. Carey, I have been prescribing my Prescription No. 777 (known for years as Marshroot) for kidney and bladder troubles, and now that I have retired from active practice I have made arrangements with leading druggists to dispense this wonderful prescription at a moderate price, on the money back if dissatisfied plan.
Beware of kidney disease—thousands died of it every year who ought to be enjoying the blessings of life and health. Watch the symptoms. If you have specks floating before the eyes, purty urine, clammy feet, moist palms, backache or side ache, you ought to get a bottle of Dr. Carey's famous prescription. No. 777, right away.
It has wonderfully benefited tens of thousands of cases of kidney and bladder troubles, and is the medicine you can always depend upon. Results are guaranteed.
NOTE—Dr. Daniel G. Carey was a practicing physician for many years and his Great Prescription, No. 777, aided thousands of sufferers from kidney and bladder troubles. Hereafter you can always get this effective prescription in both liquid and tablet form at People's Drug Co., and all reliable druggists throughout the country.

The speaker told of the growth of the Y. M. C. A. work, throughout the world since its organization in London in 1844 by George Williams. The first association in this country was founded in 1851 at Boston.
Mr. Steiner said the association is not a substitute for the church but its work is supplementary, cooperating to accomplish ends that the churches cannot individually achieve. The work of the different departments is explained showed that the Y. M. C. A. renders a valuable service in the community.

Hidden Values Keep Essex Young in Long Service

After fifty, sixty and seventy thousand miles, Essex cars keep the dash and action of new cars. They stay tight and quiet. They keep their economy of operation and maintenance.

Service like that is not accidental. It results from hidden values which are fully revealed only in long hard service. Attention to detail extends to parts you never see. Finest roller bearings are used where commonly plain bushings are used. For the weight carried the Essex frame is the sturdiest built, save one.

Qualities like these make Essex cost less in the long run than the lowest priced cars, because of the difference in repair, maintenance and replacement costs.
